How to use this book

Same songs, same tune, same right hand: only the chords are new

The tune

The right hand plays the tune in the usual place on the keyboard, with the same notes and fingers as the Grade 1 songbook. Learn the song from that book first.

The chords

Above every group of notes is the new, richer chord in orange, and under it the simple chord it replaces (“was C”). The left hand plays the keys written in blue, from the lowest key up, with the fingers shown under them (5 = little finger, 1 = thumb). Hold the chord until the next one. A chord is only changed where it sounds good with the tune.

Smooth chords

The left hand uses inversions: the chord keys are moved so the hand stays in one place and only a finger or two moves to the next chord. The keyboard pictures at the top of each song show every chord shape it uses; the orange key is the lowest note.

The new chords

Page 3 explains each kind of chord: major 7th, add 9, sixth, minor 7th substitutes, 7th chords, 7 sus 4 and slash chords.

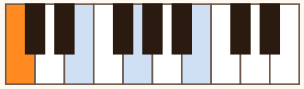

Practise

Play the left hand alone first, saying the chord names. Then play hands together slowly. When it is easy, go back to the Grade 1 chords and hear the difference.

The new chords

Every kind of chord used in this book, shown in the key of C

Cmaj7

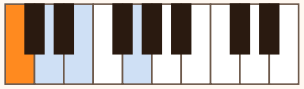

C E G B (5 3 2 1)

Major 7th

Add the note a half step below the root. Soft and warm: used for the home chord and chord IV.

Cadd9

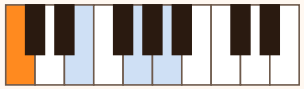

C D E G (5 4 2 1)

Add 9

Add the 2nd (the 9th) to the chord. Bright and open: very common in worship songs.

C6

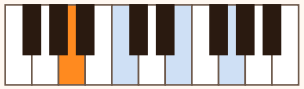

C E G A (5 3 2 1)

Sixth

Add the 6th. A sweet, finished sound: good for the last chord of a song.

Am7

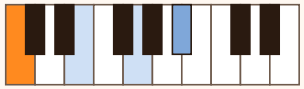

A C E G (5 3 2 1)

Minor 7th (substitute)

The chord on the 6th note (Am7 in C) can take the place of the home chord. The chord on the 2nd note (Dm7 in C) can take the place of chord IV, best just before chord V.

C7

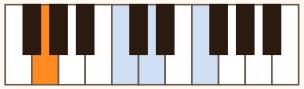

C E G B♭ (5 3 2 1)

Dominant 7th

Chord V with a 7th pulls home. The home chord with a 7th (C7 in C) pulls to chord IV: the gospel move.

G7sus4

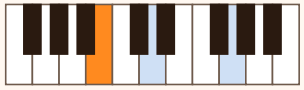

G C D F (5 3 2 1)

7 sus 4

Chord V with the 4th in place of the 3rd, then back to V7: a stronger ending.

G/B

B D G (5 3 1)

Slash chord

G/B means a G chord with B as the lowest note. The bass walks C – B – C instead of jumping.
